Frequently Asked Questions:

Are the decals dishwasher, microwave and oven safe?

No, our decals are not dishwasher, microwave or oven safe – our products are best to be gently washed in cool water with minimal scrubbing to the decal.

Am I able to customise the design shown in the photos?

Of course! These are purely just examples of what we can do!

We have heaps of acrylic options for our signs (check out our website!), we also have a section for 'Colours & Fonts' of the vinyl we provide, as you can see there are heaps of options to pick from! If a font that you are after isn't there, we will work with you to get exactly what you are after!

We want to work with you to create your dream item for your special day.

Are the greeting cards & proposal cards customisable?

Of course! Just let us know what you want the card to say and we can personalise it for you!

How is postage calculated?

We send our products via Australia Post. They charge based on the dimensions, weight and location. We can provide a quote of postage once we know where we are sending the items to if they are not standard sizes to fit in a post pack.

Alternatively, if you are local to South East Melbourne, we can organise delivery or collection.

We look forward to hearing
from you!!
